To Whom It May Concern,

I oppose the Draft Memorandum being proposed by the FDA. The definition of "inordinate amount" which restricts the availability & the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies is NOT acceptable. This is an obvious political & economic move to protect large pharmaceuticals & limit competition.

This draft needs to be killed now. In America competition is healthy & very useful for caring for us & providing all individuals with their best formulated medicine.

Thank you for responding to this immediately.

Sincerely yours,

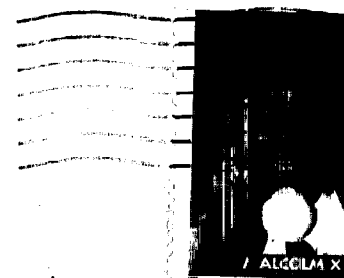

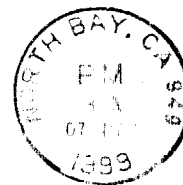

Elizabeth C. Riedel
